Rheumatism and Neuralgia

These twin diseases cause untold suffering. Doctors admit that they are difficult to cure—so do their patients. Paine's Celery Compound has permanently cured the worst cases of rheumatism and neuralgia—so say those who have used it.

"Having been troubled with rheumatism at the knee and foot for five years, I was almost unable to get around, and was very often confined to my bed for weeks at a time. I used only one bottle of Paine's Celery Compound, and was perfectly cured. I can now jump around, and feel as lively as a boy." FRANK CARROLL. Eureka, Nevada.

"Paine's Celery Compound has been a God-send to me. For the past two years I have suffered with neuralgia of the heart, doctor after doctor failing to cure me. I have now taken nearly four bottles of the Compound, and am free from the complaint. I feel very grateful to you." CHAS H. LEWIS, Central Village, Ct.

Paine's Celery Compound

"I have been greatly afflicted with acute rheumatism, and could find no relief until I used Paine's Celery Compound. After using six bottles of this medicine I am now cured of rheumatic troubles." SAMUEL HUTCHINSON, So. Cornish, N. H.

Effects Lasting Cures

Paine's Celery Compound has performed many other cures as marvelous as these.—copies of letters sent to any address. Pleasant to take, does not disturb, but aids digestion, and entirely vegetable; a child can take it. What's the use of suffering longer with rheumatism or neuralgia?

CLEANING BOTTLES.

Ingenious Devices for Removing All Traces of Former Contents.

There are probably a few old-fashioned bottlers who clean not only temperance-drink bottles, but also wine bottles with shot; but that is not the practice in the latest approved bottling establishments, says the New York *Sun*. There is one in South Fifth avenue where five thousand bottles are cleaned every day, and thoroughly cleansed, without the use of shot.

Ordinary root beer and sarsaparilla bottles are easily cleaned, because the material used in them is readily and quickly soluble in cold water. The bottles are dumped, throat up, into a big tub of clean cold water, which is kept clean by constant replenishment. Each bottle is quickly filled and allowed to soak a short time. Then the cleaner grasps three or four bottles in his two hands, holding them throat up, and shakes them vigorously. That is sufficient to dislodge the sugary coating, and then the bottles are inverted and allowed to drain off. As they are made of transparent green glass it is easy to see when they are clean. Care is taken to wash out any flies that have been sepulchred in the bottle in their search for sweet things. The old-fashioned stone bottles that were formerly used for root beer have long been discarded as too heavy and costly.

The cleaning of soda-water bottles is more carefully done. Here warm water is used, and the workman manipulates a four-pronged tool that looks like a fork. Each prong is mounted with a stiff blade of India rubber, of such shape that when the prong is thrust into the bottle the rubber blade reaches the inner side of the bottle. In front of the workman is a cocoa mat. This serves a double purpose. The mat cleans the outside of the bottle, and the rolling brings the whole inside of the bottle in contact with the rubber blade. A few vigorous rolls clean the bottle thoroughly, and then it is rinsed and ready for use.

Still another process is used for lager-beer bottles, which require even more vigorous washing. This is done by a machine with revolving spindles, on which are placed rubber brushes. The bottle is thrust over the spindle, which is run by steam, and running water carries off the scum. Each bottle then gets a thorough internal scouring.

It is, in fact, an essential element of success in the bottling business to keep the bottles clean, and no manufacturer who expects to keep his custom would dare neglect the essential element of cleanliness. The element of cost prevents, if no other considerations could do so, the slow and tedious method of cleaning bottles with shot. There was a bottle-washing macine in use here not long ago which cleansed bottles with revolving bristle brushes, but the wear and tear of bristles was found to be too expensive, although the work done was very effective. The substitution of rubber blades for the bristles proves to be cheaper and quite as thorough.

A much better way than the use of shot for cleaning bottles is to put a small piece of iron chain with small links into the bottles with some water. This, when rattled about, will clean a bottle well. Of course, if a bottle has been filled with any greasy substance the only way to clean it thoroughly is with strong alkali, and this is done by all careful bottlers.

THE MOTHER-IN-LAW.

An Earnest Plea in Behalf of a Much-Abused Class of Women.

Perhaps to-day there is no relation in life in which a woman is so persistently abused and misunderstood as in that to her daughter's husband, says the New York *Press*. It has been made the theme of the jest book, the circus clown, and the topical songster ad nauseam. In the vulgar and witless warning against matrimony, sung by Nadjy, it is encouraging to note that the hit at "mother-in-law" extracts only a sickly smile from the audience. No doubt this is due to the staleness of the subject quite as much as its false sentiment, but let us hope it marks a revulsion in public taste, notwithstanding that fair bride, Amelie Rives, who makes Herod say:

Methinks that Satan was a married man, and his wife's mother egged him to rebel, seeing Heaven would not hold them both.

People are beginning to find out that when a man vilifies his mother-in-law it is generally safe to assume that he ill-treats his wife. A young girl, when she marries, takes it for granted that her husband's love and devotion will continue to be hers as much as the sunshine and the air. The mother, from her wider observation and perhaps bitter experience, is full of vague fears and alarm. When her daughter stood at the altar she trembled. She was losing not only her child, but her power of insuring that child's happiness. Her maternal eye, keen as eagle's, seeks to pierce the future; but no, she must fold her brooding wings and wait with beating heart to learn if this marriage meant the highest happiness or the greatest misery that comes to woman.

In the former case the mother joyously feels she has not been robbed of a daughter, but been given a son. Her heart turns in gratitude and love to the man in whose hands her daughter's lot is secure; indeed, it is doubtful if she feels more tenderness for her own son. As to the young husband, he regards with reverence and filial affection the mother of the woman he adores, and who has made her what she is.

On the other hand, what intolerable anguish comes to that mother who, condemned to see the child she has so tenderly reared, so carefully sheltered from every rough wind and word, now the victim, or the servant, of a man whose "love" expired with possession, or whose cruelty or neglect is sapping the life of the young wife. If the mother interposes to reason, remonstrate, or save her daughter, the floodgates of abuse are opened, and in that portion of society in which the master of ceremonies is the police justice he accepts the excuse of "mother-in-law," when he should ask: "Why was she driven to interfere!"

Of course there are weak, foolish and even tyrannical women who would like to rule their sons-in-law as they do their husbands, with hysterics or rods of iron, but these are the exceptions, not the rule, which should permit a large class of women, mothers in the first place, to become a target for cheap wit and an excuse for marital orutality.

An Applied Biblical Story.

A little boy laid his stick of candy on the mantel while he buttoned his shoes.

His sister, seeing it, waltzed around the room, reaching the candy as she passed, and hastily ate it.

When her brother had finished buttoning his shoes and reached for it, lo! it was gone.

"You have my candy, miss; give it to me," he cried.

"Brother," she answered, "if you ever eat that candy you will have to be the whale and I'll have to be Jonah."—Babyhood.

THE book-keeper of the New Haven Savings Bank was missing Friday night and hints and rumors about a trip to Canada were rife. On Saturday morning when the vault was unlocked he was found, having been accidentally locked in it.

This opens up a new field for enterprising banks. Would it not pay to advertise that they keep their cashier locked in the vaults between business hours?

THE news that the deceased father of Mr. Sartoris, the husband of Nellie Grant, has liberally provided for his daughter-in-law and her children, will do much toward redeeming the Sartoris family from the unpleasant notoriety of young Sartoris. Any mention of that gentleman's peculiarities is of course liable to do damage to his innocent wife and children.

HELEN GLADSTONE, youngest daughter of the Premier, is one of the most cultured women of England. She is the President of Newnham College at Cambridge, which was her fa her's university, and has a special gift for mathematics, besides being a finished classical scholar.

THE divorce which has just been granted Mrs. Agnes Boucicault, in England, not only fully establishes the fact of her marriage, but brands Boucicault with the infamy of having endeavored, for years, to prove that his children, born in lawful wedlock, are illegitimate.

THE German press does not "entirely approve" the action of Prince Bismarck in backing down on his Samoan game. As Bismarck is said to turn the screw that works the German press, this "disapproval" has a fishy flavor, to say the least.

THE startling news comes from Grass Valley that a Wells Fargo messenger attacked a couple of highwaymen with a shotgun and drove them to the woods.

GENERAL HARRISON is said to have completed his inaugural address, but what he will say can only be surmised.

MANY gentlemen occupying fiduciary positions view with alarm the agitation toward Canadian annexation.

Boards of Examiners.

WASHINGTON, Feb. 5.—The Secretary of the Navy has designated the following officers' board to conduct the official examination and trials of the cruiser Charleston, now being built at San Francisco: Commodore, George E. Belknap; Commander, Henry Glass; Chief Engineer, R. L. Harris, and Lieutenant, E. F. Qualtrough. Also the following board to ascertain the horse power developed: Chief Engineers, R. L. Harris, F. A. Wilson and W. S. Smith; Passed Assistant Engineers, F. G. Hoffman, A. B. Bates, W. L. Dunning and E. T. Warburton, and Assistant Engineers, J. N. Hollis, G. W. McElroy, J. M. Ricknell, C. W. Dyson and W. F. Darran. The examination will be made as soon as the contractors inform Commodore Belknap that the vessel is ready.

Must Serve His Full Term.

SAN FRANCISCO, Feb. 4.—The State Supreme Court this afternoon rendered a decision in the habeas corpus case of David S. Terry, now confined in Alameda county jail. The court decided that Terry must serve out the full term of his sentence as imposed by the Federal Court. Terry's counsel claimed that under the State law he was entitled to a credit of five days for each month, and that his term had accordingly already expired.

A Heavy Storm.

MARQUETTE, Mich., Feb. 6.—The greatest blizzard for years raged all night and is still howling this morning. Railroad traffic is almost at a complete standstill.

The Parnell Commission.

LONDON, Feb. 5.—At the opening of to-days session of the Parnell Commission, Attorney General Webster said he had finished with the Irish portion of the *Times* case and would take up the American portion. A witness named Black, testified that he joined the Fenians in 1865, and was appointed a military organizer. After the failure of the invasion in Canada, he joined a society known as the B. C., the object which was to provide money to carry on the Irish agitation and to ship arms to Ireland. Witness remembered a visit of Dillon and Parnell to America in 1880. Meetings were held during their stay in the United States, organized exclusively by the United Brotherhood, or Clan Na Gael. Witness attended several meetings at which, Messrs. Dillen and Parnell were present. Parnell attended a demonstration in Chicago, at which Bodies of Clan Na Gael and the Hibernian rifle guards were under arms.

Beach produced a copy of the constitution of the "B. C," or Clan Na Gael. This provided for a concerted action of the Irish Brotherhood and kindred societies, to bring about a combination of Irish revolutionary movements in all parts of the world to act decisively against England, as witnessed in 1878. Devoy and Milton were sent as delegates to Ireland, receiving $10,000 from the skirmishing fund, and further sum which does not appear in the official list. Attorney General Webster read Devoys official report in which he urged that before any large quantity of arms was sent, to prepare the Irishmen to use them. Beach further testified that his connection with that organization would destroy his usefulness, and on this account he was not allowed to join.

Anticipated Death.

PESTH, Jan. 5.—The *Nation* newspaper, publishes a letter written by Crown Prince Rudolph, a short time before his death, to Von Scuegenyi, an attache of the Imperial Household, to whom he entrusted the preparation of his papers. The letter reads: "Dear Scuegenyi; I send you herewith, a codicil; execute the provisions thereof and of my will, drawn two years ago, with the assent of my wife. In my study at Hofburg, stands a small table; with the enclosed gold key, open the drawers and you will find my papers, the arrangement of which I entrust to you; leaving it to your judgement to decide what to publish. I can live no longer. Remember me to all my good friends; farewell. God bless our beloved Fatherland.

Signed Yours, RUDOLPH.

A Desperate Woman Killed.

FORT SMITH, Ark., Feb. 5.—At Euffa, Indian Territory, on Sunday, Bell Storer was shot and killed—no particulars. Bell was a notorious woman. She was once the wife of Cole Younger, of the Younger gang, and afterwards she married Sam Storer, who was shot down by her side two years ago. Then she married Jim Storer, his cousin. Bell was the most desperate woman that ever figured on the borders. She married Cole Younger and directly afterwards left him and joined a band of outlaws that operated in Indian Territory. She has been arrested for murder and robbery a score of times, but always managed to escape. Her husband, Jim Storer, when he heard of her death, mounted his horse and left for the scene, and somebody will have to pay the penalty.

His Work to be Finished.

VIENNA, Feb. 5.—A great crowd gathered again this morning outside the court chapel, awaiting an opportunity to view the remains of the Crown Prince. Perfect order was maintained. At a meeting of the Council having in charge the final publication of Rudolph's work on Austria—Hungary to-day, Von Szoegyenyi intimated that the Emperor was in favor of continuing and completing the work which he said would probably be finished under the patronage of the Crown Princess Stephanie.

One Killed and Three Injured.

BOSTON, Feb. 5.—Early this morning a locomotive and tender passed up the track on the Lowell railroad towards Somerville. The engine, as it passed the bridge, toppled over, pinioning a man beneath the cab, and very soon a train collided with the locomotive and drove it ahead, carrying the injured man beneath it, and when he was taken out he was dead. He proved to be the engineer, W. Larkell. The fireman, brakeman and freight conductor are dangerously injured.

French Politics.

PARIS, Feb. 5.—The Chamber of Deputies have confirmed the election of General Cluseret as a member for V. A. R. It was charged that he was an American citizen, and therefore ineligible.

Pere Hyacinthe has disavowed that he has leaning toward Boulangism. He compares Boulanger to the late Emperor Soulouque of Hayti.

Proceedings of Congress.

WASHINGTON, Feb. 5.—The conferees on the Territories admission bill held a two-hour session this morning, during which the whole situation was gone over thoroughly, but without any result.

HOUSE.

The Senate amendment was concurred in to the House bill for the retirement of General Wm. F. Smith, with the rank of Major of Engineers.

The House proceeded to the consideration of the conference report on the Nicaragua Canal bill.

The House Committee on military affairs directed a favorable report on the bill granting the Big Horn Railroad Company the right of way across the Fort Custer, Montana reservation. A favorable report has been ordered by the House Judiciary Committee upon the naturalization bill.

SENATE.

The House bill for the establish ment of a territorial government in Oklahoma was presented. After a long debate the bill was referred to the Committee on Territories.

The special committee on Pacific railroads to-day heard Tweed, of the New York Counsel for the Central Pacific, in an argument favoring a consolidation of the bills providing for the funding of the debts of the Union and Central Pacific into one measure.

The Brooklyn Strike.

NEW YORK, Feb. 5.—The Fifth Avenue street-car line of Brooklyn, is running cars guarded by the police. It is expected that all the Atlantic Avenue roads will be in operation in a week. President Richardson refused to hold a conference with a committee of the strikers.

This afternoon the strikers attacked a car at 65th street and Boulavard, pelting it with stones. The passengers left the car, and the officer in charge, Thomas K. Snyder, having been hit in the face by a stone, fired into the crowd, killing James McGowan, a hostler on the Belt line.

Parnell's Scotch Case.

LONDON, Feb. 5.—The action brought by Parnell against John Walter, proprietor of the *Times*, for libel, came up before the court at Edinburgh again to-day and was dismissed, and the costs assessed against the plaintiff. This judgment was given on the ground that Walter being one of the co-partnership owning the *Times*, arrestments against him as an individual would be invalid. Parnell will appeal.

His Clothes Returned.

DUBLIN, Feb. 5.—The prison officials of Colonmel have returned to Wm. O'Brien his civilians clothes, which were forcibly removed from him upon his incarceration. O'Brien's condition is such that he has been removed to the infirmary connected with the jail.

Not Allowed to Talk.

VIENNA, Feb. 5.—Several have been arrested for repeating the rumors that Crown Prince Rudolph met his death at the hands of the husband of a woman he had betrayed. It is asserted that the Crown Prince, in his last letter to his mother, said: "I cannot live longer."

Railroad Statement.

BOSTON, Feb. 5.—The statement of the Oregon Railway & Navigation Company for the year 1888, is as follows: Earnings, $6,380,000; increase, $1,004,000; expenses, $4,029,000; increase, $1,184.000; surplus, $351,000; decrease, $181,000.

Funeral Rites.

A Complete Failure.

NEW YORK, Feb. 5.—All the street-car railroads thrt ran cars yesterday are running to-day without opposition, generally on schedule time. Many of the strikers are applying for work.

NEW POSTOFFICE

One Established at Purdy's Station on the N., C. & O. R. R.

Isaac Frohman, private secretary of Senator Stewart, writes the GAZETTE that some days ago the Senator received a petition praying for the establishment of a postoffice at Purdy's station, on the N., C. & O. R. R., and for the appointment of Mrs. Mathilda Evans as postmistress, but that they did not know who forwarded the petition. With the Senator's characteristic energy it (the prayer) has been answered, as the following letter will show:

WASHINGTON, D. C., Jan. 29, 1889.

Hon. Wm. M. Stewart, U. S. Senate—DEAR SIR: I am in receipt of your letter of recent date, concerning the establishment of a postoffice at Purdy's station, Cal. In compliance with your request this office will be established. Yours truly,

H. E. STEVENSON,
First-Assistant Postmaster General.

Fatal Railroad Accident.

Last evening, about 10:30 o'clock, a brakeman, known as Handy Andy, fell from freight train No. 7 near Jones' ranch, about two miles east of Reno, but his absence was not discovered until the train got to Wadsworth, when an engine was dispatched in search of him. A telegram was also sent to Reno, and Dr. Thoma started out and found the injured man, whose left leg was terribly crushed below the knee. He was brought to Reno, but never recovered from the shock to his nervous system, and he died about 7 o'clock this morning. Deceased was about 22 or 23 years of age, and is said to have been an excellent hand.

An Appealed Case.

The Court of St. John's Quebec, has ordered a young woman of age, who had renounced Catholicism and become a Protestant, and entered a Protestant educational institution, to return to the guardianship of her father. An appeal has been taken.

Social Entertainment.

The Young Men's Institute will give a social entertainment at the Odd Fellows' Hall on the evening of the 21st inst. The music and singing will be under the direction of Miss Kittie Grippen.

THE SEWER QUESTION.

What "X" Has to Say Concerning It.

EDITOR GAZETTE: Your editorial of yesterday presents a good suggestion. If $5,000 more will complete the system of sewerage in Reno it should be forthcoming. The Commissioners should cause surveys to be made, profiles prepared, from which estimates of the cost of the necessary work could be computed. This done, then those in power should advertise for bids, not only for the necessary digging and filling, but for the needed pipe, and thus have the work done under proper specifications by contract. If bonds are issued it might not be out of place to have a provision in the act requiring this mode of completing the sewerage, unless the provisions of the act which requires the Commissioners to advertise for bids for all work exceeding, in the aggregate, $500, is applicable to town affairs as well as county. The fact that the Chairman of the Board of Commissioners has assured the public through your editorial that proper connections shall be made by the property holders should be the cause of undoing a portion of the action of the small meeting on Saturday night, and instructing the law-makers from this county to favor an act authorizing the issuance of $25,000 in bonds expressly for sewerage purposes. X.

PEDRO RANCHERS.

Why This Coast Does Not Raise Its Own Chickens.

The Red Bluff, Cal., *Sentinel*, referring to the fact that California fails to supply itself with eggs and poultry, and replying to an article in the Colusa *Sun* on the same subject says: Simplest thing in the world; you've got too many "Pedro farmers" in Colusa county. "Pedro farmers" go to town with a few dozen eggs that the "woman" has saved up, sells them, takes the money and goes to the popular saloon and plays pedro all day, then returns home after dark with a plug of tobacco in his pocket and a pint of bad whisky in his stomach, and tells the "woman" that he had to let the eggs go on the "store bill" and could not get the sugar and coffee she sent for. That's the way the eggs go, and the hens have hard work to keep the head of the house in "terbacker" and rum.

The Aggressive Germans.

There is much indignation among British merchants at Zanzibar in consequence of the action of the German Consul in pressing the Sultan to cede Lamu and the adjacent islands to a German company. The trade of those islands has been entirely in British hands.

The Chamber of Torture

Is the apartment to which the unhappy sufferer from inflammatory rheumatism is confined. If, ere the crisis of pain is reached, that fine preventive, Hostetter's Stomach Bitters, is used by persons of a rheumatic tendency, much unnecessary suffering is avoided. Nervines, anodynes and sedatives, which having but a specific effect, are yet very desirable at times. Yet, can they produce no lasting effect upon rheumatism, because they have no power to eliminate from the blood the rheumatic virus. Hostetter's Stomach Bitters does this, and checks at the outset a disease which, if allowed to gain headway, it is next to impossible to dislodge or to do more than relieve. Rheumatism, it should be remembered, is a disease with a fatal tendency, from its proneness to attack the heart. A resort to the Bitters should, therefore, be prompt. Dyspepsia, kidney complaint, malaria and nervousness are relieved by it.

The spring crop of maple sugar, made from the sap of indigenous trees, is coming into Grass Valley. The California maple sugar is nearly equal in sweetening power to the New England article.

The New Discovery.

You have heard your friends and neighbors talking about it. You may yourself be one of the many who know from personal experience just how good a thing it is. If you have ever tried it, you are one of its staunch friends, because the wonderful thing about it is, that when once given a trial, Dr. King's New Discovery ever after holds a place in the house. If you have never used it and should be afflicted with a cough, cold, or any Throat, Lung or Chest trouble, secure a bottle at once and give it a fair trial. It is guaranteed every time, or money refunded. Trial bottle free at S. J. Hodgkinson's.

It should be generally known that Dr. Henley's Dandelion Tonic insures a hearty appetite and increased digestion, dispels nervous depression and low spirits, overcomes lack of energy and wakefulness, and will infuse new life and strength into the weakest invalid. Sold by William Pinniger.

A THRIFTY AUTHOR.

Literary Work Which Affords a Comfortable Income.

A Washington correspondent says that Mrs. Burnett probably earns more money than any woman in the world, and gets a higher price for her work. Her income this year will be from $50,000 to $60,000. In the first place she receives a percentage of the receipts from the play of *Little Lord Fauntleroy*, which is now being presented by four companies in England and one in the United States, and two more being organized to travel in this country. Her weekly revennes from the play in England, vary from $800 to $1200, and from the managers of the Broadway theater, in New York, she gets about $500 a week. Fifteen hundred dollars a week is not an exaggerated estimate of her receipts from this play alone, while her revenues from the sale of the book are large.

A Sound Legal Opinion.

E. Bainbridge, Munday Esq., County Atty., Clay Co., Texas, says: "Have used Electric Bitters with most happy results. My brother, was also very low with Malaria Fever and Jaundice, but was cured by the timely use of this medicine. Am satisfied Electric Bitters saved his life."

Mr. D. I. Wilcoxson of Horse Cave, Ky., adds a like testimony, saying: He positively believes he would have died had it not been for Electric Bitters.

This great remedy will ward off, as well as cure all Malarial Diseases, and for all Kidney, Liver and Stomach disorders stands unequaled. Price, 50c. and $1 at Hodgkinson's.

Oregon is one of the most productive States in the Union. Its vast mineral regions contain gold, silver, copper, iron and coal. Its immense tracts of grazing lands support thousands of cattle and sheep, and its extensive agricultural regions produce all the cereals in abundance, the yield per acre being, in some instances, the largest in the world. Among the useful and valuable products of the Webfoot State may be mentioned Oregon Kidney Tea, which has proved a boon to thousands afflicted with pain in the back and kidney difficulties. It is purely of vegetable composition and never fails. Sold by William Pinniger.

The immediate symptoms of Dyspepsia, or Indigestion, are a distressing sense of weight, oppression and fullness in the stomach, heartburn, loss of appetite, foul breath, belching, flatulency, nausea, pains in the shoulders and breast. Dr. Henley's Dandelion Tonic promotes healthy digestion and removes all unhealthy symptoms. Sold by William Pinniger.

This is the season of the year when the raw, cold winds create sad havoc with the hands and complexion. Soft, white hands and a clear "peachy" complexion can be assuredly preserved by the frequent application of Dutard's Specific. If rubbed into the skin well it leaves no greasy surface. The skin absorbs it. Sold by William Pinniger.

THE MARCH OF PROGRESS!

OUR LATEST IMPROVEMENTS!

"Competition is the Life of Trade," and if you have not seen our latest improved goods you cannot imagine how lively trade is or how hard our competitors have to work to keep within sight of us. Ask your retailer for the JAMES MEANS' $3 SHOE, or the JAMES MEANS' $4 SHOE according to your needs.

Positively none genuine unless having our name and price stamped plainly on the soles. Your retailer will supply you with shoes so stamped if you insist upon his doing so; if you do not insist, some retailers will coax you into buying inferior shoes upon which they make a larger profit.

Such has been the secret progress in one branch of industry that we are now able to affirm that the James Means' $3 Shoe is in every respect equal to the shoes which only a few years ago were retailed at eight or ten dollars. If you will try on a pair you will be convinced that we do not exaggerate. Ours are the original $3 and $4 Shoes, and those who imitate our system of business are unable to compete with us in quality of factory products. Our lines we are the largest manufacturers in the United States.

One of our leading salesmen who is now visiting the shoe retailers of the Pacific Coast and Rocky Mountain Region writes from there as follows:

"I am more than satisfied with the results of my trip. I have thus far succeeded in placing our full line in the hands of A No 1 dealers in every place I have visited." He goes on to say, "This is a splendid region for us to sell shoes in, because most of the retailers are charging their customers at retail about double the prices which the shoes have cost at wholesale. The consequence is that the people who wear shoes are paying six or seven dollars a pair for shoes which are not worth as much as our JAMES MEANS' $3 SHOE. Our shoes with their very low retail prices stamped on the soles of every pair are breaking down the high prices which have hitherto ruled in the retail markets here, and when a retailer puts a full line of goods in his store they at once begin to go off like hot cakes, so great is the demand for them."

Now, kind reader, just stop and consider what the above signifies so far as you are concerned. It assures you that if you keep on buying shoes bearing no manufacturers' name or fixed retail price stamped on the soles, you cannot tell what you are getting, and your retailer is probably making you pay double what your shoes have cost him. Now, can you afford to do this while we are protecting you by stamping our name and the fixed retail price upon the soles of your shoes before they leave our factory so that you cannot be made to pay more for your shoes than they are worth?

Shoes from our celebrated factory are sold by wide-awake retailers in all parts of the country. We will place them easily within your reach in any State or Territory if you will invest one cent in a postal and write us.

AYER'S HAIR VIGOR

Restores the color, gloss, and youthful freshness of the hair; stimulates a rich and luxurious growth; thoroughly cleanses the scalp; prevents dandruff and humors; and is the most cleanly and effective preparation for the hair ever offered to the public. Rev. J. W. Davenport, Illinois Bend, Texas, writes: "Ayer's Hair Vigor, used in my family for several years, has no equal as a dressing, nor for preventing the hair from falling out or turning prematurely gray. It ranks among the first luxuries of our house." Miss Kate Rose, Ingersoll, Ontario, writes: "While keeping my head clear of dandruff, and preventing Scald Head, Ayer's Hair Vigor has also caused my hair to grow luxuriantly, resulting in my now possessing hair forty-two inches long, and as thick as could be desired." The wife of Dr. V. S. Lovelace, Lovelaceville, Ky., had very bad tetter sores upon her head, causing the hair to fall out. Ayer's Hair Vigor healed the sores, and in less than twelve months produced hair a foot long.

AYER'S HAIR VIGOR.

No More Bald Heads.

To produce a new growth of hair on bald heads, in the case of persons advanced in years, is not always possible. When the glands are decayed and gone, no stimulant can restore them; but, when they are only inactive, from the need of some excitant, the application of Ayer's Hair Vigor will renew their vitality, and a new growth will result. L. V. Templeton, Newbern, N. C., writes: "After a protracted illness, with fever, my hair all came out, leaving me entirely bald. I procured a bottle of Ayer's Hair Vigor, and, before I had used all its contents, a thick growth of hair, nearly two inches long, covered my head." L. D. McJunkin, Perryville, Md., writes: "Baldness is hereditary in my family. Five years ago the hair on the top of my head was becoming weak and thin. I procured Ayer's Hair Vigor, the application of which invigorated the hair roots, and sent out a new growth of young hair. To-day my hair is as thick and vigorous as ever. I still use the Vigor occasionally to keep my scalp in a healthy condition."

An Amusing Imbroglio.

"A somewhat amusing imbroglio connected with forged bank-notes is making the Hungarians merry," says the Vienna correspondent of the London Times. "A short time ago a gang of men, supposed to be forgers of bank-notes, was arrested at Stuhlweissenburg, and the tribunal of that town sent a bundle of their false notes to the court of justice at Budapest, before which the prisoners were to be tried. By some blunder the notes were forwarded to the tax office as genuine, and the tax office put them in circulation. As a consequence the prisoners had to be acquitted on that trial for want of proof. They now intend, it is said, to sue the Hungarian Government for their money, arguing that the genuineness of the notes has been sufficiently established by their circulation through the tax office. It ought to be explained that in this country, where the currency is paper, nobody ever thinks of taking the number of a bank-note."

Show-Window Displays.

A well-known Boston detective says of the displays in our show-windows: "It may look queer, but it is true, that the stores which have large exhibitions in their show-windows do more toward educating young boys to steal than any thing else. The reason of this is that large crowds, mostly women, gather about the windows to look at the displays. Well, a young gamin comes along and sees a pocket-book protruding out of a woman's pocket, and the temptation is so great that he sneaks up behind her and steals the wallet. Maybe this is his first time, but when once given a start in this direction there seems to be a kind of infatuation about it which leads him to follow it up, and oftentimes results in his becoming a professional house-breaker."

PRECIOUS PERFUMES.

Something About the Ingredients Used in Their Composition.

A Fragrant Subject Discussed in an Interesting Way—The Flowers, Spices and Herbs Employed by Perfumers Here and Abroad.

The rose is one of the most valuable of the limited series of flowers available to the perfumer. When dried it is useful in sachets or scented powders, distilled, it yields rose water and the well-known ottar, and subjected to enfleurage it gives oil, pomade and alcoholate. The variety chiefly used is the hundred-leaved Rosa centifolia, and is grown for commercial purposes most extensively in Turkey, India and in the south of France, says the San Francisco *Chronicle*. The ottar of rose is a light yellow or straw-colored liquid, possessing a high degree of concentration, the characteristic odor of the flower, and a diffusiveness and persistency that render it of great service to the perfumer.

Of the citrine family, consisting of the two great divisions of lemons and oranges, the bitter or Seville orange is the most valuable species to the perfumer. Its flowers yield the ottar known as the oil of neroli, or neroly, and by enfleurage a pomade and alcoholate of delightful fragrance. The rind of the ripe fruit contains a useful oil, and the small unripe berries and leaves also furnish one. Another orange of importance is that known as the Bergamia, from which the oil of bergamot is produced. The common lemon gives an essence having both perfume and flavor, while from the citron is taken the truly delightful essence known as the ottar of cedrat.

By enfleurage the modest violet yields an odor which is universally admired for its delicacy and sweetness. The chief violet beds are at Nice, where the plants are bedded in the shade of orange or acacia groves. Approximations of the scent of the violet are found in the acacia, the orris, and in myallwood, a native of Austrail. The acacia referred to is a small tree or shrub which grows only in southern latitudes, and the flowers, which are yellow and about the size of a large pea, are cassie flowers. These are treated by enfleurage. Cassie must not be confounded with cassia, which is the common cinnamon.

The tuber-rose is a bulbous plant, first noticed by old writers as the Indian hyacinth. The odor is obtained by enfleurage, and is not only a favorite in its pure state, but enters into the formation of the most recherche bouquet. France, Italy and Spain contain the chief gardens of the tuber-rose, although there is no reason why in this industry, as in so many others, California should not enter the competing field.

The ylang-ylang (flower of flowers) is the blossom of a large tree native in the islands of the India archipelago. Its native Tagal name is the ihlang-ihlang, the Malays call it kanonga, and to botanists it is known as unona odoratissima. The flowers remind one somewhat of the locust blossom. Their color is a greenish yellow, and they possess an odor resembling a mixture of jasmine and lilac, so powerful that it scents the air for miles. The ylang-ylang was first discovered by a chemist at Manilla in 1867. It is now largely manufactured there and at Singapore.

Lavender, rosemary and patchouly are all herbs. The two former are quite well known in this country; the last named is an Indian plant resembling our garden sage. To the natives it is known as putchapat, both leaves and stem yielding an ottar of great strength and very peculiar odor.

Of the spice series cloves and cinnamon are the only ones that are much used in perfumery, and these are chiefly employed in soaps. The clove tree is largely cultivated in the West Indies and the Malacca islands, while the cinnamon is not the bark of commerce, but comes from a smaller tree, and has a milder odor and flavor, with a faint touch of muskiness. Cassia comes from China, the true cinnamon from Ceylon.

Two odorous grasses, natives of India, furnish ottars of extensive usefulness. One is lemon grass, having a strong resemblance in odor to the lemon verbena, and from it nearly all our "extracts of verbena" and "verbena water" are made. The other ottar is citronella, a perfume which most persons have made acquaintance with in the so-called "honey soap."

The wood of the sandal tree, a native of the West Indies, gives a curious odor, greatly admired in Oriental countries and much valued by us. It is both used in substance and distilled for its ottar. Vetivert, or kuskus, a thread-like Indian root, furnishes another perfume of the same class as sandal, but sharper and more approaching floral odors. It is a strong and durable odor that gives its characteristic to the "cashmere bouquet" soap. The ottar of vetivert is much higher in cost than even that of roses.

Bitter almonds, though containing no ottar in their natural state, yield one by the reaction of their constituents in the presence of water. Thus the still furnishes us the almond odor, which, while sickening in itself, finds a place in minute quantities in many of the finest floral compounds.

Vanilla is the capsula of a beautiful creeping plant native in Mexico and South America. It is generally from six to ten inches in length, about one-fourth of an inch in diameter, cylindrical in shape, tapering toward either end, and slightly flattened. The color is dark brown. The interior contains a sort of pulp filled with little shining black seeds. Its flavor and odor are both familiar.

The origin of ambergris was long a mystery, but is now known to be a diseased secretion of the spermaceti whale. It is found floating on the surface of the sea, and has an odor which is extremely unpleasant when pure, but which gives mellowness and permanency to mixtures.

Musk is also a secretion, and is obtained from the musk deer, a pretty little animal inhabiting the higher mountain ranges of Tonquin, China, and Thibet. The musk is found in a small pocket or pouch under the belly of the deer, and, being cut off by the hunters, becomes hard and dry and preserves its contents as an unctuous powder of a reddish brown color. Its powerful, warm, aromatic odor blends well with every other scent, and gives them permanency without being intrusive.

Anecdote of Webster.

When quite young at school, Daniel Webster was one day guilty of a violation of the rules. He was detected in the act and called up by the teacher for punishment. This was to be the old-fashioned feruling of the hand. His hand happened to be very dirty. Knowing this, on his way to the teacher's desk he spat upon the palm of his right hand, wiping it off on the side of his pantaloons. "Give me your hand, sir," said the teacher, very sternly. Out went the right hand, partly cleaned. The teacher looked at it a moment, and said: "Daniel, if you will find another hand in this school-room as filthy as that I will let you off this time." Instantly from behind his back came the left hand. "Here it is, sir," was the ready reply. "That will do this time," said the teacher, "you can take your seat, sir."

It is great folly to be constantly borrowing trouble from the future. Those who do so borrow a great deal of trouble in thought that never comes in reality, and hence haunt their own minds with imaginary evils. It is a French proverb that "the worst misfortunes are those which never arrive."
